## **What we offer**

### **Amenities**

Clients are placed within a residential home with their own bedroom. Clients will have access to medical attention, 3 meals a day, Internet, Computers and Entertainment.

### **Recovery**

Recovery starts on the date of admission, clients will have group therapy sessions and individual counseling during the day. As well as other treatment methods determined by the Behavioral health professional.

### **Career development**

Each person will have the opportunity to apply and work a job after displaying program maturity. Clients will be able to learn how to manage their money and finances.

### **Social Development**

Before, Inbetween or after daily therapy sessions clients will be able to do social activities decided by the staff and clients themselves.
